

TAIL GATE WEATHERSTRIP

To the best of my knowledge from what I have read, this weaterstrip has been unavailable for a long time. If anyone has found a source for the real weatherstrip or a source of a replacement which works well please let me know and I will add it to this posting. At one point or another all of us are going to need this piece sometime.

You can contact me at: nick@dynis.info

Thanks!

2131-129 1351725 WEATHERSTRIP, lower and sides, tail gate opening . . . 63S,63V, 64S, 64V
