PARTS AND SERVICE

SUBJECT 1963 STATION WAGON MODEL TAIL GATE
DOVETAIL ASSEMBLY AND STRIKER AND
DOVETAIL KEEPER ASSEMBLY

NUMBER F-1963-22

FROM C. R. MCINTOSH, Manager
Passenger Car Technical Service

DATE December 2, 1963

Shortly after the start of production of 1963 model station wagons, the tailgate dovetail assembly was changed to provide for adjustment of the assembly by threads on the part. At the same time the striker and dovetail keeper assembly was changed by the addition of a rubber insert to provide flexibility of the assembly and a degree of self-alignment with the dovetail.

Whenever you have occasion to replace either of these parts on an early produced 1963 model station wagon, it is recommended that both the dovetail assembly and the striker and keeper assembly be replaced using the following parts:

<u>Part No.</u>	<u>Description</u>
1355106	Dovetail Assembly - Right
1355107	Dovetail Assembly - Left
1355100	Striker and Keeper Assembly - Right
1355101	Striker and Keeper Assembly - Left

These parts are available, upon order, from your Parts Depot.
